Introduction

Thank you for using DispCam for Mac!

[DispCam for Mac](#) is a fast, full-featured DisneyPlus video downloader for Mac users. It has the same features as the Windows version. DispCam is fully compatible with macOS 10.15 and above and helps users download Disney Plus titles on Mac for offline viewing. Armed with the advanced downloading core, this program has the ability to download videos without the Disney+ app and get unlimited videos in high quality.

Apart from the powerful download features, DispCam also has a good performance on saving Disney Plus videos in MP4 or MKV format, meaning that users can move the downloaded files to other media players without any restriction. Besides, it has the ability to save multi-language audio tracks and subtitles, letting you switch audios and subtitles freely when watching the videos offline on any media player. With the help of this smart tool, you can easily save Disney Plus videos for offline playback on any device at any time.

Key Features

- Support downloading HD (up to 720p) videos from Disney Plus.

Customize Download Settings

You can set the downloaded video in advance through the **Settings** window. Click the **Setting** icon  on the upper right corner to choose the video format (MP4 or MKV), video quality (High, Medium, Low), audio type, output path, audios and subtitles language, etc. If you have requirements for subtitles, DispCam also provides three forms of subtitles for you to choose from.

If you want to save videos with smaller files, you can select H.265 video codec in the **Advanced** tab, which can save videos with the same definition in smaller file sizes. In addition, if you want to increase your download speed, you can also enable **hardware acceleration** in this window to speed up downloads.
